Education

GL Bajaj Institute Of Technology And Management   **2019 − 2023**
Bachelor of Technology in Computer Science, CGPA : 8.7/10   *Greater Noida, Uttar Pradesh*

Skills

Languages:	C++, C, python, Java, Javascript
Frameworks:	Reactjs, React Native
Backend:	Nodejs, Expressjs
Database:	MySql, Mongodb
Tool:	Firebase, Git, Visual Code
OS:	Linux, Window
Coursework:	Operating system, Data Structure and Algorithm, OOPS

Work Experience

GWOC - Open Source Contributor   **August 2021 - Present**
- Contributing in the Android development using java,flutter and Firebase.

Two Waits - DSA Scholar   **July 2021- August 2021**
- Used to prepare the coding question that for hackerrank test, quiz and prepare the technical post related to Algorithm .

Projects

Android Application | Java, HTML - Link
- Developed an android application having feature of advice on disaster preparedness,planning for evacuation and emergencies implemented by using Java, HTML and web view.
- used to improve the efficiency and effectiveness of disaster-handling activities.
- can prevent disaster situations and also result in saving maximum lives and livelihoods during any disaster situation, enabling the affected population to get back to normalcy within a short time period.

Phone authetction Application | Flutter, Dart, Firebase, HTML - Link
- Developed A Phone authetction Application using Flutter, Dart, Firebase, HTML .
- user have to put their phone no. and application automatically verify the OTP and get the user to login page.

Achivement

HackerRank:Completed assessment of the skill in Python(Basic)
Leetcode: Solved 100+ problem at Leetcode.
HackerRank: 5 star at Problem solving, C, C++ at Hackerank.
